In School Guide, you will find:

- **Guidance for Families** – everyday circular practices, hands-on learning activities, and inspiring local circular initiatives
- **A Framework for Action for Schools** – covering leadership and governance, curriculum and professional development
- **An Implementation Roadmap and Circular School Readiness Assessment** to help schools plan their next steps

THE SCHOOL GUIDE

The guide brings circular economy principles into everyday school and family life, moving away from the traditional "take-make-waste" model toward a system where products, materials, and resources stay in use for as long as possible.

[Access the Circular School Guide here](#)

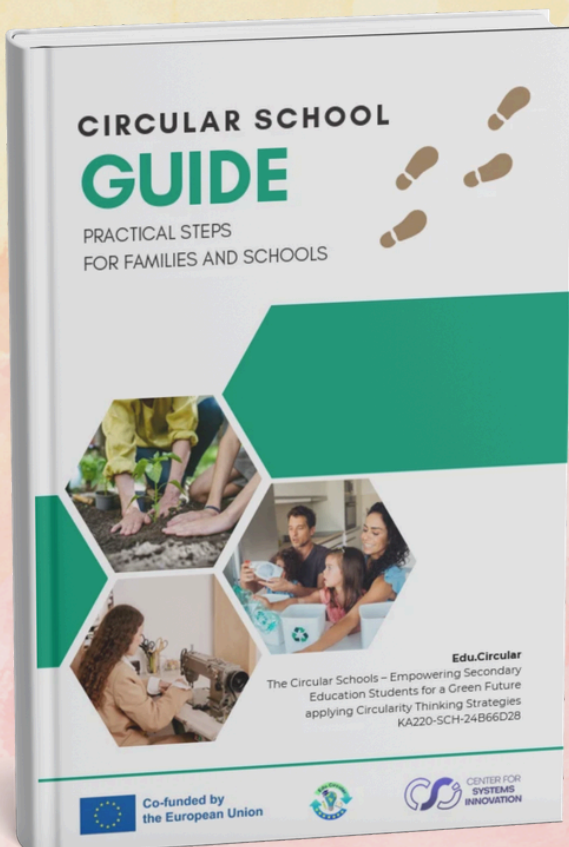

THE MOODLE PLATFORM

The moodle is now ready and open for use! It brings together the educational materials and digital tools developed throughout the project, giving students, teachers, and parents easy access to everything the project has produced.

ICCEE INTERNATIONAL CONFERENCE ON CIRCULAR ECONOMY IN EDUCATION

The conference will take place on 30 September 2026, from 09:00 to 17:00, at the European Parliament Office in Spain (Madrid). We are particularly proud that the European Parliament has agreed to host this international event, which will bring together experts, educational institutions and policy makers from across Europe to discuss the future of education and sustainability.

THE CIRCULAR SCHOOL GUIDE

We're excited to share the Circular School Guide: Practical Steps for Families and Schools — one of the flagship resources of the EDU.CIRCULAR project.

Growing concerns about pollution, climate change, and waste call for new ways of thinking. This guide brings circular economy principles into everyday school and family life, moving away from the traditional "take-make-waste" model toward a system where products, materials, and resources stay in use for as long as possible.

The Circular School Guide

*We're excited to share that the **Circular School Guide: Practical Steps for Families and Schools** — one of the key resources of the EDU.CIRCULAR project — is now ready to use.*

Growing concerns about pollution, climate change, and waste call for new ways of thinking. This guide brings circular economy principles into everyday school and family life, moving away from the traditional "take-make-waste" model toward a system where products, materials, and resources stay in use for as long as possible.

Inside, you'll find:

- **Guidance for Families** — everyday circular practices, hands-on learning activities for parents and kids, and inspiring local circular initiatives
- **A Framework for Action for Schools** — covering leadership and governance, curriculum and professional development, assessment practices, collaboration and communication, and infrastructure and operations
- **An Implementation Roadmap and Circular School Readiness Assessment** to help schools plan their next steps
- **Best Practices Across Europe** and ready-to-use visual aids, including a Weekly Meal Planner template

Whether you're a student, parent, teacher, or school leader, the guide offers practical, adaptable ideas to help circular thinking become part of everyday culture — at school, at home, and in the community.

The Moodle Platform

The EDU.CIRCULAR **Moodle Platform** is now ready and open for use! It brings together the educational materials and digital tools developed throughout the project, giving students, teachers, and parents easy access to everything the project has produced.

On the platform, you'll find:

- Educational materials and digital tools created specifically for Circular Economy learning
- Resources tailored for students and teachers
- A central hub to support circular economy education both inside and outside the classroom

Save the Date: ICCEE International Conference on Circular Economy in Education

 **30 September 2026 | 09:00 – 17:00**  **European Parliament Office, Madrid, Spain**

The conference will take place on 30 September 2026, from 09:00 to 17:00, at the European Parliament Office in Spain (Madrid). We are particularly proud that the European Parliament has

agreed to host this international event, which will bring together experts, educational institutions and policy makers from across Europe to discuss the future of education and sustainability.

Highlights of the day include:

- A high-level policy debate on Circular Economy Education with representatives from political institutions, educational authorities, companies, and Climate-KIC
- A live demonstration of the **EDU.CIRCULAR XR Application** and Moodle platform
- The official **launch of the Circular School Guide & Circular Thinking Repository**
- First-hand experiences "From Lesson Plans to Real Change," shared by piloting schools from Italy, Türkiye, Hungary, Spain, Greece, and Bulgaria
- **Student Voices** and **Families as Agents of Change** sessions
- An interactive co-creation session: *"What should Circular Schools look like in 2035?"*
- A recognition ceremony honouring project partners, schools, teachers, students, and families
- The premiere of the closing video, *"The EDU.CIRCULAR Legacy"*

This is a unique opportunity to see the project's achievements, connect with fellow educators and stakeholders, and help shape the future of circular economy education in Europe.
